

## Windows Calculator replacements

2005-10-18 11:02:59 by kguske

The Windows calculator leaves much to be desired. Fortunately, there are many replacements with excellent features, including AddUp, Auditor Calculator, calcANT, ESBcalc, Moffsoft FreeCalc, and Willy's Freeware Calculator. Each offers a unique blend of extras that make CALC.exe obsolete.

\*\* NOTE: Removed AddUp as it is not free
